January Monthly Report

For Donations

<https://www.egyptcancernetwork.org/>

Introduction

The JCI- accredited Children's Cancer Hospital Egypt (CCHE) widely known as Hospital 57357 is the largest pediatric oncology Hospital in the world with a present capacity of 380 beds. The CCHE is a unique humanitarian endeavor which is entirely sustained by donations. The Hospital is providing comprehensive, family-centered, top quality care and a chance for cure to children with cancer free of charge and without discrimination. It treats an estimated 45% of Egypt's pediatric cancer cases with improving cure rates from less than 20-40% to almost 72%, . Since its inception in 2007, the CCHE is continuously improving its care and services offering its patients the latest equipment, technology, and evidence-based practices.

Organizational structure

**Our culture is about commitment to Execution,
Opportunity and Growth**

It is based on Ethics, Value Creation and Innovation .

Hospital 57357's pharmaceutical services department receives accreditation of the American Society of Health System Pharmacists, ASHP

ASHP is the collective voice of pharmacists who serve as patient care providers in hospitals, health systems, ambulatory clinics, and other healthcare settings spanning the full spectrum of medication use. The organization's more than 60,000 members include pharmacists, student pharmacists, and pharmacy technicians. For 80 years, ASHP has been at the forefront of efforts to improve medication use and enhance patient safety.

International Accreditation of Hospital and Health System Pharmacy Services is a Recognition of Pharmacy Service Excellence

The ASHP Accreditation Standard for International Hospital and Health-System Pharmacy Services address these primary areas for high quality pharmacy practice

visits **1623**

Emergency room visits

operations **509**

Surgeries

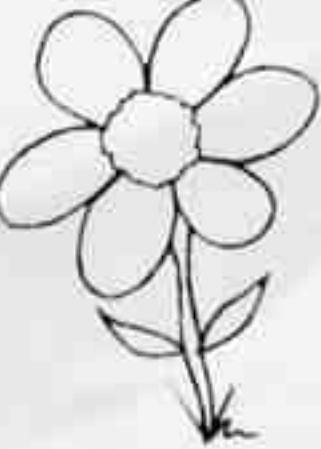

visits **12,135**

Visits to Outpatient and specialized clinics

Super Hero

**Basmala's message from 57357 for the New Year:
To each and every one who supported us: thank you
from the bottom of our hearts**

**To each cancer fighter in 57357: don't let anything defeat you,
stick to the hope inside, continue to fight the cancer, and pray
to God to grant us healing.**

**While a year is about to end and a new one is about to begin we
cherish this message that was written by one of 57357's hero-
ines. Filled with hope in a better future, Basmala, a student in
the first year of the faculty of education, psychology depart-
ment from Alsharqueya, was admitted to 57357 in March 2021,
and is still receiving treatment. She wrote a message to each
hero in 57357, and every kind heart who supported her.**

You can benefit from Hospital 57357's

**service surplus and at the same time contribute
to the cost of treatment of its patients**

Presently, the Corona virus test, the PCR in Hospital 57357's labs costs only EGP 500 with the QR code

You can also take the test at home for an additional EGP 100

Results are delivered within 12 hours

For booking and information call 19057

Daily from 8 am to 8pm

The cost of the test is your contribution to the care and treatment of 57357's children with cancer

57357, a knowledge seeking journey for the triumph of life

الأبحاث العلمية لشهر يناير 2022

إجمالي الأبحاث: 1

تم نشر بحث بعنوان:

«MECOM gene overexpression in pediatric patients with acute myeloid leukemia»

وهو بحث معملي في مجال أبحاث سرطان الأطفال تم كتعاون بحثي بين مجموعة من أطباء أورام الأطفال داخل المستشفى

The screenshot shows the Acta Oncologica journal homepage with the article details overlaid. The article title is "MECOM gene overexpression in pediatric patients with acute myeloid leukemia". It lists authors: Mariam Elsherif, Mahmoud Hammadab, Hanafy Hafezab, Dina Yassine, Mohamed Ashraf, Nouran Yassere, Leslie Lehmann, & Alaa Elhaddad. The journal's Impact Factor is 4.08.

Heroes backing up our children

Dr. Asmaa Hammouda, pediatric oncology consultant in Hospital 57357

one of 57357's team members who are always there for our children with their science, love and continuous care. She wrote the following on her Facebook page, expressing her happiness for the recovery of her patient, Reham: Reham has been a patient in the Hospital for more than 10 years. She recovered and was able to pursue her normal life. She got married, and God granted her a wonderful gift, her son Malik). For a follow up visit, Reham brought along her son Malik, delighting her physician, Dr. Hammouda who was so happy to see the little one. Dr. Hammouda prayed that God may grant Malik, Reham, and her brave and dignified husband infinite blessings and protection

57357 In the eyes of the press

During an insightful chat with Dr. Sameh Saad, head of 57357's tumor biology unit, he highlighted the following

- The Corona pandemic demonstrated that science and research are the first rescue boat of mankind,
- The research repelling environment in Egypt has changed in the last years :the resources that are made available for my research work at 57357 were not offered to me in the u.s.
- The latest promising cancer treatment is immunotherapy which depends on activating the immunity system to enable it to detect cancerous cells and attack it
- One of our recent studies demonstrates that COVID-19-induced oxidative stress inflicts structural damages to Albumin and is linked with higher mortality outcome in critically ill patients.

The Omicron Corona variant is more rapidly spreading but less harmful than the other variants which may suggest that it a year or two Corona will be considered as another common virus.

تحفيظ آلام طفل بالنسبة لى أهم من جائزة نوبل

يعمل مستشفى 57357 على قدم وساق في كل ما يتعلق بالبحث العلمي وذلك أولاً في مواجهة أحدث ما يصل إلى العالم من تطور علمي وكتلوجي مما ينعكس على صحة وآمان البشرية ونظراً لإيمان المستشفى بأهمية الدور المجتمعي الذي تقوم به فقد كان لها في ضوء جائحة كورونا حمولة عديدة لوجهها هذا الوباء وأحدث تلك المخاوفات في نجاح فريق البحث العلمي بالمستشفى في الوصول إلى بحث شديد الأهمية تم نشره في مجلة «Life», الأمريكية يكشف العلاقة بين احتفال حدوث الوفاة في الأيام العشرة الأولى من الإصابة بفيروس كوفيد 19 وبين حدوث تلف مكثف في أحد بروتينات الدم يسمى «البومين», وفي هذا السياق سجّلتنا دكتور سماح سعد استاذ الفيزياء الحيوانية رئيس وحدة بيولوجيا الأورام بمستشفى 57357 عن أهمية هذا البحث وأهمية دور البحث العلمي في مصر بشكل عام.

حوار: رانيا نور

وصلنا في 57357 لبحث يوضح العلاقة بين زيادة الوفيات في الحالات الحرجة

تتفق بذلك من خلال تفاصيل سعاده حداد رئيس وحدة بيولوجيا الأورام بمجلس إدارة المستشفيات على ما ذكره في المقال أن هناك تغير في الاتجاه

الذى يتحقق من خلال تغيير في الاتجاه

Egyptians gather inside Hospital 57357

Worldwide and former Cairo opera orchestra maestro Nader Abassi inaugurates Hospital 57357's recreation center

I am impressed to see such a center in an Egyptian Hospital

Imminent cooperation of the Maestro with 57357 to support the art therapy activities

The opera artist and worldwide orchestra leader Nader Abassi inaugurated Hospital 57357's recreation center (the art workshop) , and along with Cairo orchestra members spent some time with the children. The orchestra leader of the mummies and road of rams celebrations, expressed his admiration for the establishment of the recreation center in the Hospital and its role in psychologically supporting the patients. He was also impressed to see world healthcare standards applied in an Egyptian Hospital

This is 57357, the world where we live

**Churches youth share 57357's children
celebrating the Christmas**

Despite that the Christmas was in the weekend, Egypt's churches sent delegations of its youth to share 57357's children the joy of the feast. The Hospital welcomed 17 delegations from different churches in greater Cairo. The delegations included churches youth and families who came to share our children the Christmas joy. They handed children nice gifts and also donated in favor of supporting their treatment journey

It is noteworthy that in every week the Hospital welcomes many visits by children's lovers and our charity partners from Egypt's churches. Through blood and monetary donations, oshour and sadaka, our generous supporters contribute to the continuation of the healthcare we provide to children for free

Advanced technology for treating 57357's children for free

Providing the PCR biometra device

It can easily detect the presence of cell mutations in a given biopsy if compared to real-time PCR devices that are used also for quantification but with a higher degree of sensitivity. As such, the device contributes to the initial diagnosis and the follow up on the patient's response throughout the different treatment phases or after bone marrow transplantation, where the device makes replication of specific genes that are targeted for examination, to see their status after treatment or bone marrow transplantation.

Super hero

Ibrahim is one of 57357 Tanta branch heroes from, Algharbeya. He was admitted to Hospital 57357 in 2019 with cancer in the knee. Thanks be to God and to all who supported him, and thanks to our hero's courage and determination, he was able to overcome the disease. Presently he is in the follow up phase. He is able to pursue his normal life, his studies and join the media department of the faculty of specific education

May God bless you Ibrahim, and each and every one of our heroes who are fighting cancer and still pursuing the fulfillment of their dreams.

Heroes backing up our children

Pharmacist / Hany Gharib

Bachelor of pharmacy, Tanta University, 2002

**Pharm D certificate from Suez Canal University,
2018, clinical pharmacy**

Started to work for Hospital 57357 in 2007

**Head of pharmaceutical services in Hospital 57357,
Tanta branch, since 2017**

Words from the CEO

**Working hard for something we don't care
about is called stress;**

**Working hard for something we love is called
passion**

Mission

Building a Sustainable Foundation to Prevent and Combat Cancer Through Research, Smart Education and Quality Healthcare Provided with Passion and Justice to Alleviate the Suffering of Children with Cancer and Their Families Free of Charge

Vision

**To Be the Unique Worldwide Icon of
Change Towards a Cancer[®] Free Childhood**

Values

- Love and respect for all the children - we recognize that children are individuals and deserve the same love and respect as we expect for ourselves especially in the face of catastrophic illness.
- Integrity - Build relationships on trust and respect for each other.
- Accountability - we are accountable to all stakeholders of the CCHE 57357 community: patients, families, colleagues, donors, public, government and educational agencies.
- Professionalism - we conduct all communication and interaction with the utmost professional standards and codes of conduct.
- Thirst for knowledge - we seek to continually expand knowledge for personal and professional development.
